

Using Oral-Motor Tools in Therapy to Facilitate Speech Skills

Application workshop following the “Oral Motor Therapy to Facilitate Speech Skills”

This course is designed to be an intensive training cum practicum session for professionals working with children having articulation difficulties and oral-motor problems. This is a level 2 course following the introductory oral motor therapy workshop conducted by Mr Binu R Nair in October 2010.

Course Participants

Speech-Language Therapists & Occupational Therapists

Limited seats only !!!

Course Outcomes

The participants will:

- 1) Observe oral-motor and articulation therapy sessions by the trainer (a total of 3 kids for the practicum).
- 2) Experience the intervention tools and techniques used by the therapist.
- 3) Understand the process of goal setting and intervention in oral-motor therapy.
- 4) Be able to use oral-motor intervention strategies with their clients.

Subject Matter

- Typical & Atypical oral-motor development.
- Case studies on assessment and intervention.
- Oral-motor intervention by Trainer.

Course assessment

Participants are required to submit a video clip of their intervention with a client, within a month following the workshop. Feedback will be provided by the trainer following the submission. A certificate of completion will be awarded following the submission and feedback.

Saturday, 15th October 2011
09.00am - 05.00pm
